FOR OVER 100 YEARS, SYLVANIA HAS BEEN AN INNOVATOR IN LIGHTING TECHNOLOGY

“ Sylvania has a way of bringing technology & creative innovation together, which ultimately leads to products and solutions with world class efficiency and design. I am incredibly proud to work at a company which really does put sustainable practices at the forefront of its values.”

Simon Greenwood
UK Sales Director
& GM

WHO WE ARE

With over 100 years of expertise, Sylvania Group manufactures and markets eco-responsible and lighting, solar and digital solutions. We are proud to be present in over 50 countries with over 1,200 employees globally.

We support our customers throughout their projects with a comprehensive range of services including design, commissioning, financing and tailored extended warranty terms.

Our European production sites enable us to provide both standard and highly customised, unique solutions while limiting our carbon footprint. In 2024, we were awarded Ecovadis Silver status, confirming our social and environmental commitment.

Our expertise and capacity for innovation are underpinned by our two historic brands, Sylvania and Concord. Energy efficiency, sustainable development, digitalisation, well-being and quality of light are at the heart of our mission.

SYLVANIA
Group

MUCH, MUCH MORE THAN JUST A LIGHTING MANUFACTURER

Standardised Lighting Solutions

Sylvania Group offers a range of versatile product solutions, perfectly suited for museums, galleries or heritage sites. Our team will collaborate closely with you to evaluate your needs and implement standardised lighting designs that optimise energy usage and improve illumination levels.

Energy Efficient Technologies

We offer a wide range of energy efficient lighting products, including LED fixtures, sensors, controls and solar panels; all designed to significantly reduce energy consumption with lighting maintaining optimal quality.

Smart Control Systems

In addition to energy-efficient lighting fixtures, our proposal includes smart control systems that enable scheduling and optimisation of lighting operations, reducing energy consumption and potentially lowering maintenance costs.

Cost Effectiveness

Our proposals focus on delivering maximum value through competitive pricing, energy savings, and long-term reliability, by minimizing upfront investment and ongoing operational expenses.

Expertise and Support

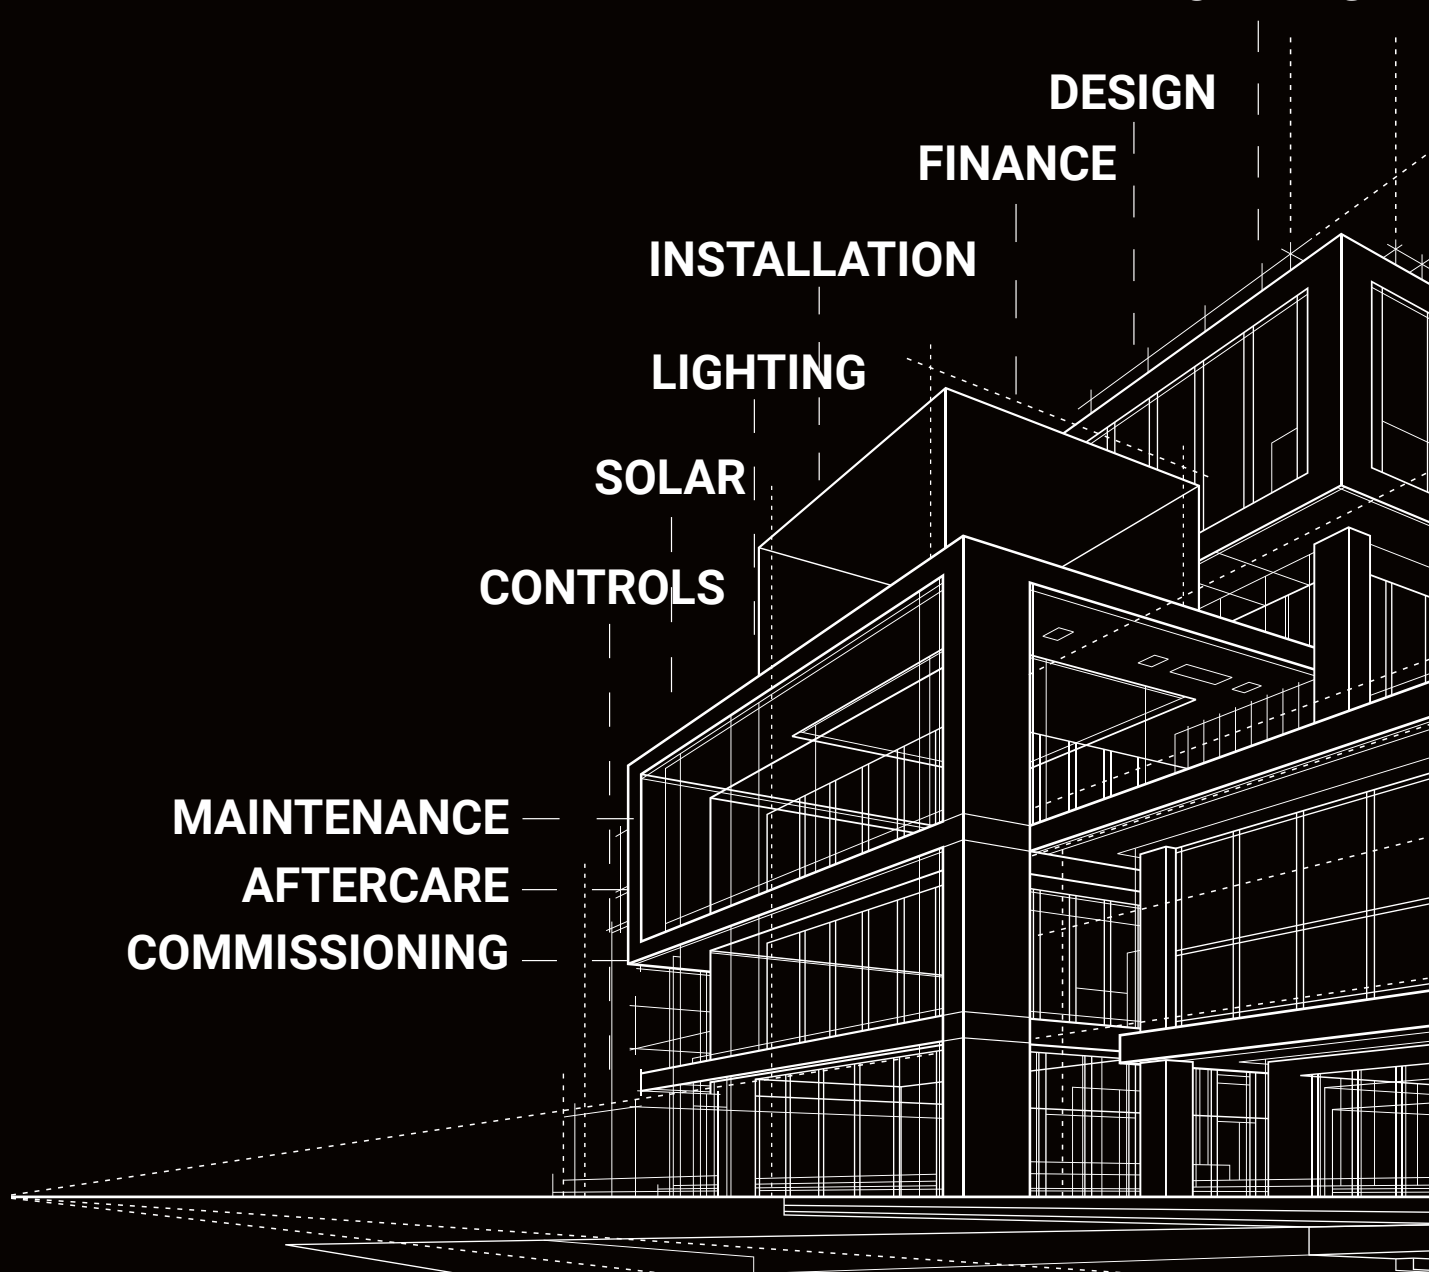

Our European centres of excellence in Germany, France and Belgium are our foundation; ensuring innovative design, development and production are aligned with a dynamic marketplace.

Concord

For over 50 years, the Concord brand has been one of the cornerstones of architectural lighting design in the UK.

Concord products can be found in the most prestigious of places, from Hampton Court Palace, the V&A Museum, National Theatre, Science Museum and Mary Rose.

The passion for excellent design and continued lighting innovation has never wavered and the Concord brand remains a household name in the lighting design world.

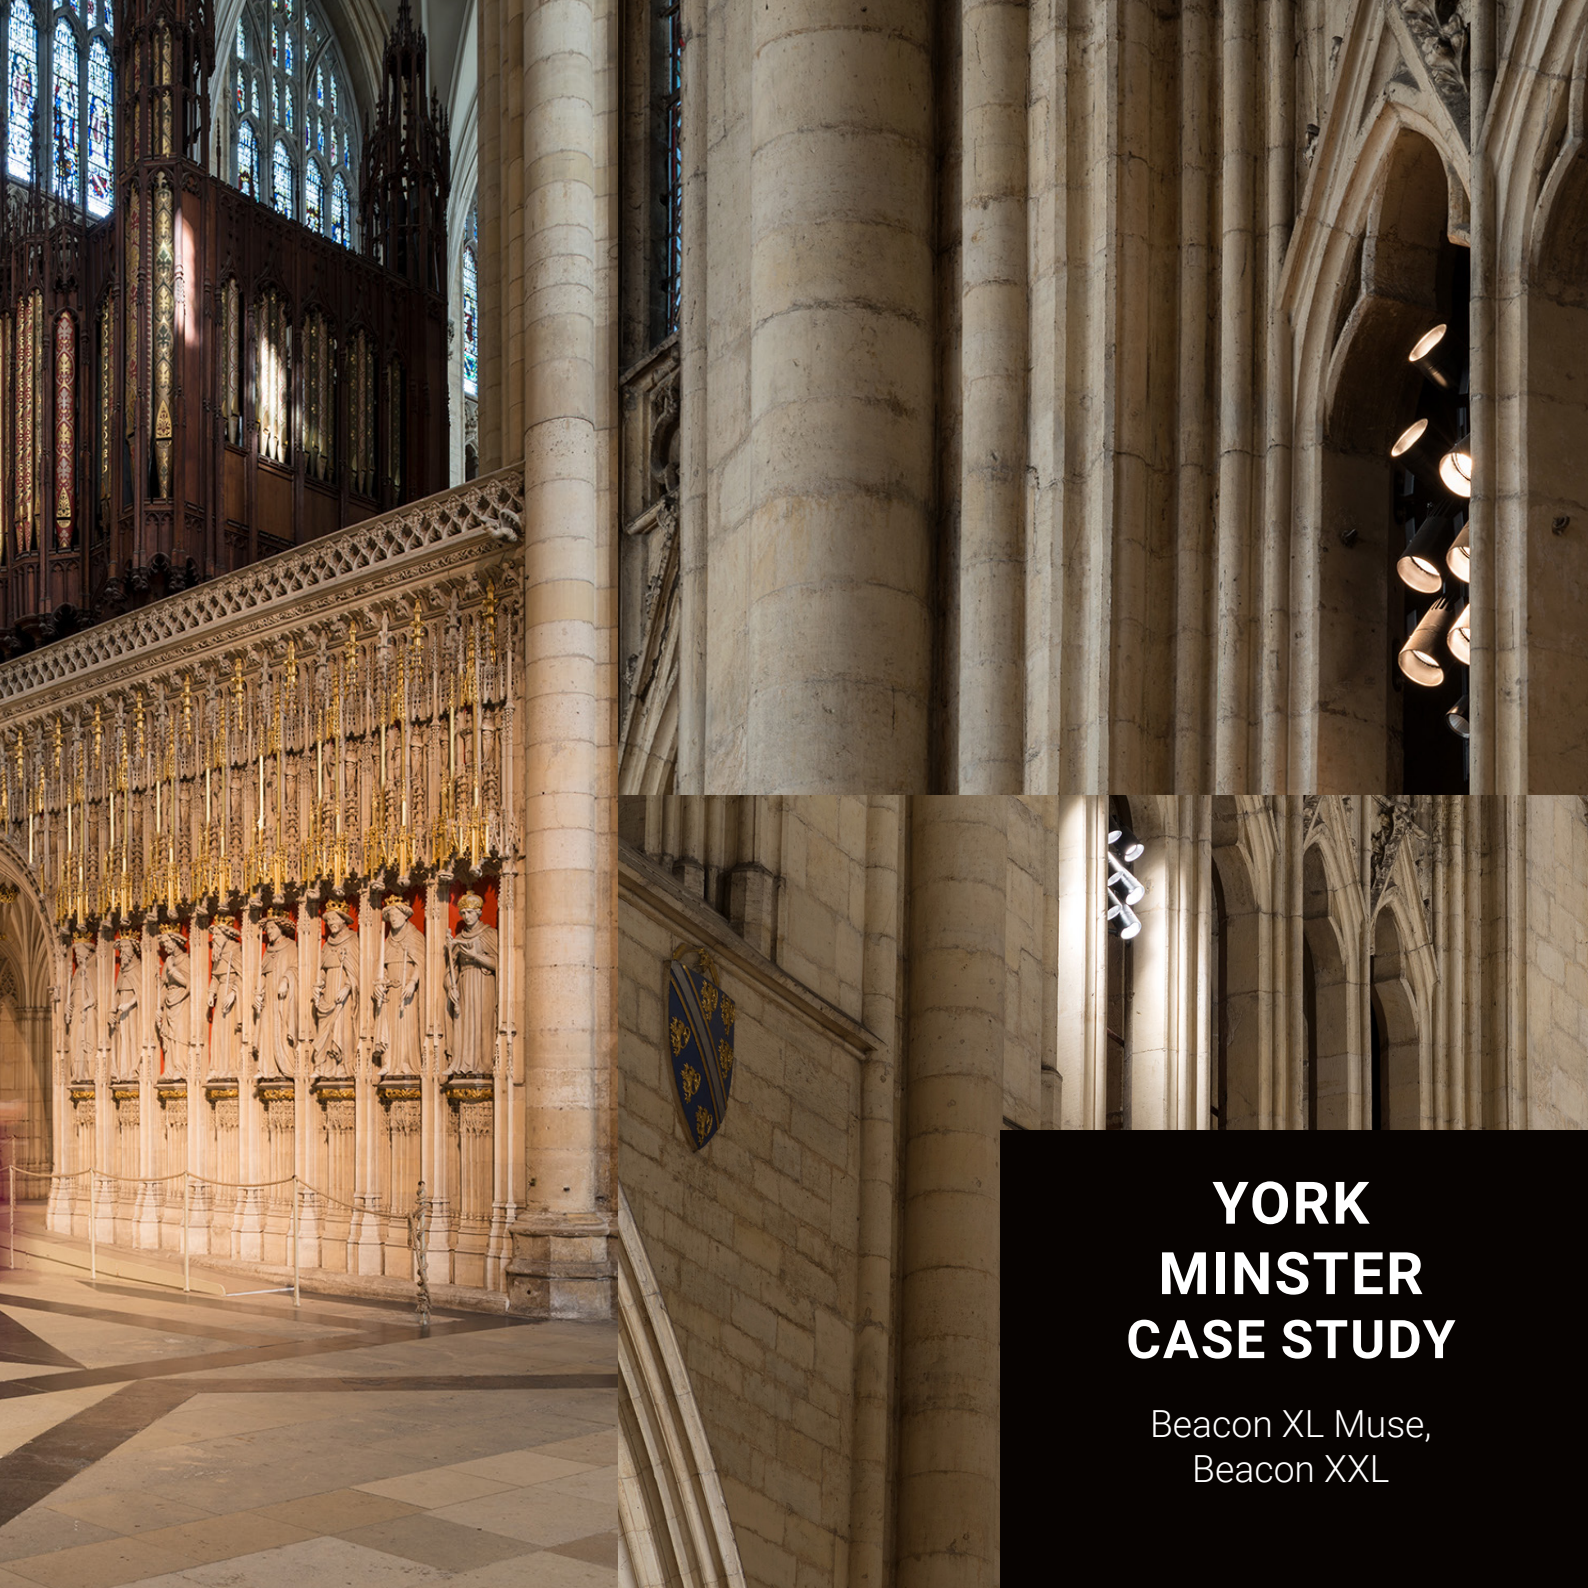

Concord's flagship product the 'Beacon', remains one of its most popular products and has been joined by many other award-winning products within the range.

50 years on, the Concord products and brand uphold the reputation for outstanding architectural lighting in the museums, galleries and heritage buildings categories.

SSC Casambi version

ATRIUMS

An Atrium is all about first impressions. It's the first thing that people see when walking into a building, so it's important to have that 'Wow' factor when it comes to lighting this space.

NEW!

BEACON

The Beacon is one of our most famous tracklights. First designed in 1986, the family has grown and evolved during this time. The NEW Beacon is available now!

NILO

Nilo is a 360° curve-shaped luminaire for retail, hospitality, and office environments. It can be suspended at different heights, allowing architects and lighting designers to play with the design space and create appealing lighting effects.

SOLSTICE

Concord Solstice is a comprehensive downlights family, specially developed for the architectural specification market. It has been developed around a bespoke reflector system which achieves class leading performance.

SYLVANIA
Group

ATRIUMS

GALLERIES & EXHIBITION HALLS

Lighting is a critical part of creating the perfect atmosphere to appreciate and preserve the beauty of art and artifacts. A high performing luminaire is paramount within these spaces to maximise the impact of what is being displayed.

NEW!

BEACON

Designed to meet diverse lighting needs: Concord Beacon is equipped with CRI97-98, an advanced lighting solution which ensures that every hue, tone and detail is displayed with unparalleled accuracy.

PIXO

The Pixo joins the Sylvania track spot range with a simple and slick integral design fixture, with no driver box or visible screws. The luminaire emits extremely precise light beams through its high quality lenses, coming in 24" and 54" sizes.

NEW!

RAXA

Modular and elegant design provides a refined solution for lighting needs. Combining aesthetic finesse with functional excellence. Raxa transcends illumination to curate spaces of comfort and tranquility.

SYLVANIA
Group

EXHIBITON

LARGER EVENT SPACE

Coming
Spring
'25!

From floodlights to downlights, ensuring a large event or exhibition space is well lit, doesn't have to compromise on aesthetics.

ROCKS

Rocks is the most versatile fixture for lighting large spaces, coming in a wide range of lumen packages from 9000 to 52 000 lumen, top-notch performance up to 190lm/W and tailored optics to suit both the open space and racking environment.

KALANI

This asymmetric range is designed to address lighting pollution and reduce the impact to wildlife and birds. With a L70 100 000h rating providing excellent longevity and with a lifespan of over 10 years, the Kalani range is one of the best in its class.

SOLSTICE

Concord Solstice is a comprehensive downlights family, specially developed for the architectural specification market. It has been developed around a bespoke reflector system which achieves class leading performance.

SYLVANIA
Group

EVENT SPACE

AUDITORIUMS

Holding a lecture or doing a presentation, the right light is imperative to ensure that the audience stays alert, and there is minimal glare. The right lighting can illuminate the space and look amazing.

MINI CONTINUUM II

Mini Continuum II provides perfectly clean horizontal and vertical lines of homogenous light with no shadows. Ideal for offices, meeting rooms, corridors, education facilities, auditoriums, museums and libraries.

QUANTUM

Quantum is a highly efficient range of LED Panel luminaires, ideal for offices, meeting rooms, corridors, breakout areas and other general indoor lighting applications including humid areas.

EQUINOX

A range of architectural downlights for the high-end specification market. Using award-winning QuarkStar system of light refraction. Creating a halo effect, regulated by a unique adjustable optic system which can be positioned freely on the luminaire to choose the best angle for light creation.

AUDITORIUMS

OFFICE & MEETING SPACES

Good lighting in offices has never been more important. It can help with mental wellbeing and motivation, plus anti-glare technology can play a huge part in promoting good physical health as well, by reducing headaches.

OFFICELYTE

Officelyte is perfect for offices and meeting rooms. Lumen output up to 4400lm. Efficiency up to 140 lm/W. UGR<19. Colour temperature 4000K. Conforming to EN 12464-1 for indoor work places.

MINI CONTINUUM II

Mini Continuum II provides perfectly clean horizontal and vertical lines of homogenous light with no shadows. Ideal for offices, meeting rooms, corridors, education facilities, museums and libraries.

QUANTUM

Quantum is a highly efficient range of LED Panel luminaires, ideal for offices, meeting rooms, corridors, breakout areas and other general indoor lighting applications including humid areas.

OFFICES

CORRIDORS/ INTERNAL WALKWAYS

Internal lighting between rooms is paramount to people's safe passage through spaces. Clear and bright light, from subtle yet stylish fixtures is the best way to light these dark spaces.

START DOWNLIGHT 5 IN 1

5in1 downlights gives the choice of 3 colour temperature (3000K, 4000K and 6500K selected via a 3-way switch located on the back of the fixture) and 2 mounting methods (recessed or surface mounted.)

GIOTTO

Our most robust, reliable and easy to install ambient LED bulkhead. Up to 2350 lumen output; IP44 and IK10 rating; Available in both surface and recessed mount.

OPTIX RECESSED

Optix is a modular luminaire fully designed around LED lighting. State of the art glare control makes it perfect for corridors. UGR<19 and UGR<16 versions and available in 3000K and 4000K with 3 lumen levels.

SYLVANIA
Group

CORRIDORS

INDUSTRIAL KITCHENS

Large Cafe or Restaurant on site? Below show some of the best Luminaires for large scale commercial kitchens.

NEW
RANGE
COMING
2025!

START PANEL IP65

The START Panel IP65 is a range of backlit LED panels used in recessed ceilings. Low glaring UGR<19. RG0, 100-degree beam angle and optical system, with efficacy: 122lm/W LITEGUARD, new range coming soon in 2025

RESISTO

LED integrated waterproof fixture in 1200mm and 1500mm nominal length. High efficiency throughout the range with up to 137lm/W system efficacy for standard and 160lm/W for HE types. 69,000hrs (L80B20) lifespan.

START SPOT ALUMINIUM

The Start Spot Alu range combines high lumen efficacy with a modern design and comfortable light. The range comes in both IP44 adjustable and IP65 fixed, with 3000K, 4000K light colour temperature options for both version and 2700K in IP44.

SYLVANIA
Group

KITCHENS

SMALL COMMERCIAL KITCHENS

Smaller kitchen onsite in offices for staff members only? Sylvania can provide the latest in IP65 rated Spotlights, and for something more funky, maybe introduce the Flex Pro to that communal space.

START SPOT IP65 FIRE

Designed and tested to meet Fire Rating Standards (30, 60, 90-minute fire rated ceilings) for safety and reassurance: BS 476-21:1987.

FLEX PRO

The Flex Pro is the family of LED strips for indoor use with IP20 & IP65 rating and IP67 for outdoor use. High Colour Rendering Index of CRI90 and R9>50 provides a nice boost in colour clarity. For most residential installations, CRI90 is a good fit for areas where you plan to spend the most time in.

SYLPENDANT

Sleek and compact metal pendants with the E27 socket, designed specifically to enhance the aesthetic of the product (only glass and metal visible.) Available in copper, brass, black and white finishes.

KITCHENS

SHARED OR SINGLE USE BATHROOMS

Your building may have smaller bathrooms on site for staff members. These areas are just as important to be well lit as anything that the public uses. Sylvania offers a range of luminaires which are perfect for shared or single use facilities.

START SPOT IP65 FIRE

Designed and tested to meet Fire Rating Standards (30, 60, 90-minute fire rated ceilings) for safety and reassurance: BS 476-21:1987.

OBICO IP65

Integrated adjustable LED accent downlight with IP65 protection from water and steam vapour, with high lumen efficacy.

SYLMIRROR SLIM/ FLUTE

Sylvania's new SylMirror is as versatile as it is practical! Ideal for mirror lighting to change the look of your bathroom, but also suitable for cabinet lighting in different rooms of the house.

SYLVANIA
Group

BATHROOMS

PUBLIC TOILETS

Ensuring that any public toilet facilities are well lit to avoid any slips is paramount. Luminaires which have the right IP rating whilst still being aesthetically pleasing is a must.

INSAVER SLIM

Insaver is a comprehensive range of downlights with lumens value from 620lm to 4950lm. High efficacy: up to 131lm/W brings benefit of even more energy saving. Emergency pack 0046600 and 0046601 available as accessory.

QUANTUM

Quantum is a highly efficient range of LED Panel luminaires, ideal for offices, meeting rooms, corridors, breakout areas and other general indoor lighting applications including humid areas.

START SURFACE IP54

START Surface Slim IP54 is a range of wall or ceiling mounted LED luminaires that provides an even and uniform light in a slim but robust design. Available in four different circular and two square design dimensions, perfect for circulation areas, corridors, bathrooms and wet areas.

PUBLIC TOILETS

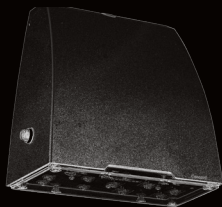

OUTDOOR WALKWAYS

Everyone knows the importance of a well lit walkway, but with lighting capabilities changing all the time, exterior lighting doesn't have to be staid. From poles to recessed, below is a flavour of what Sylvania can offer.

START BOLLARD

Integrated LED bollard, contemporary design on a classic bollard, 1100LM, 19W, 58lm/W, integrated switch allows to choose between warm white (3000K) and neutral white (4000K) colour temperatures.

MURO SURFACE

Wall mounted fixture for exterior lighting applications, Die cast aluminium housing in RAL7016 – anthracite grey colour. Also available with 3 hour emergency.

START SURFACE IP66

START Surface IP66 is perfect for interior and exterior applications including residential and commercial entrance ways and corridors. It benefits from a robust design that meets IK10 requirements.

WALKWAYS

CAR PARKS

Car park lighting has along a lot in the last years. As well as having the best in lighting design, car park energy usage can now be monitored by using our SylSmart Energy app. Also, Fluroescents are now banned, meaning LED is lighting the way to the future.

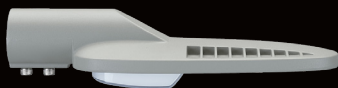

START BOLLARD

Integrated LED bollard, contemporary design on a classic bollard, 1100LM, 19W, 58lm/W, integrated switch allows to choose between warm white (3000K) and neutral white (4000K) colour temperatures.

RESISTO

LED integrated waterproof fixture in 1200mm and 1500mm nominal length. High efficiency throughout the range with up to 137lm/W system efficacy for standard and 160lm/W for HE types. 69,000hrs (L80B20) lifespan.

ZEPHYR

LED Lantern complete with 60mm side entry spigot and supplied with 0.5 metre mains supply cable, die-cast aluminium housing, polycarbonate cover and IP66 rated.
