

RESIDENTIAL

“ Sylvania has a way of bringing **technology & creative innovation** together which ultimately leads to products and solutions with **world class efficiency** and **design**. I am also incredibly proud to work at a company which really does put **sustainable practises** at the forefront of its values. ”

Simon Greenwood
UK Sales Director
& GM

WHO WE ARE

With over 100 years of expertise, Sylvania Group manufactures and markets eco-responsible lighting products, solar and digital solutions. We are proud to be present in over 50 countries with over 1,200 employees globally.

We support our customers throughout their projects with a comprehensive range of services including design, commissioning, financing and tailored extended warranty terms.

Our European production sites enable us to provide both standard and highly customised, unique solutions while limiting our carbon footprint. In 2024, we were awarded Ecovadis Silver status, confirming our social and environmental commitment.

Our expertise and capacity for innovation are underpinned by our two historic brands; Sylvania and Concord. Energy efficiency, sustainable development, digitalisation, wellbeing and quality of light are at the heart of our mission.

SYLVANIA
Group

MUCH, MUCH MORE THAN JUST A LIGHTING MANUFACTURER

Standardised Lighting Solutions

Sylvania Group offers a range of versatile product solutions, perfectly suited for large residential projects. Our team will collaborate closely with you to evaluate your needs and implement standardised lighting designs that optimise energy usage and improve illumination levels.

Energy Efficient Technologies

We offer a wide range of energy efficient lighting products, including LED fixtures, sensors, controls and solar panels; all designed to significantly reduce energy consumption with lighting maintaining optimal quality.

Smart Control Systems

In addition to energy-efficient lighting fixtures, our proposal includes smart control systems that enable scheduling and optimisation of lighting operations, reducing energy consumption and potentially lowering maintenance costs.

Cost Effectiveness

Our proposals focus on delivering maximum value through competitive pricing, energy savings, and long-term reliability, by minimising upfront investment and ongoing operational expenses.

Expertise and Support

Our European centres of excellence in Germany, France and Belgium are our foundation; ensuring innovative design, development and production are aligned with a dynamic marketplace.

LIVING / COMMUNAL AREAS

A place to relax, kick back and enjoy the company of friends. A living space needs to be both bright and cozy, so with a multitude of colour temperatures and housing colours, these lighting suggestions fit the bill.

SYLFIRE GU10

Recessed fire rated housing frame to use with RefLED GU10 spotlight lamp Ø50mm - GU10 spotlight not included. Steel body, round bezel ring.

START SPOT

The START Spot range combines high lumen efficacy with outstanding value. The spotlights have an integrated LED driver, polycarbonate body and a low profile of 47mm.

START SPOT FIRE IP65

Integrated LED fire rated recessed spotlight, white bezel colour, three temperature light colours selectable: 3000K, 4000K, 6500K.

LIVING SPACES

BEDROOMS

Lighting multiple bedrooms across one project doesn't have to be difficult. Bedrooms need to be relaxing spaces, but still be light enough for study, reading etc. The below gives a snapshot of some of the perfect bedroom options.

SYLPENDANT (VARIOUS COLOURS)

Sleek and compact metal pendant with the E27 socket, designed specifically to enhance the product's aesthetic. Modern and versatile design. Perfect for Sylvania LED lamps range.

SYLFIRE GU10

Recessed fire rated housing frame to use with RefLED GU10 spotlight lamp Ø50mm - GU10 spotlight not included. Steel body, round bezel ring.

START SPOT ALUMINIUM

Integrated LED recessed spotlight, white bezel colour, white reflector, 740lm, 9.0W, dimmable trailing/leading edge, 3000K, 40° degree beam angle, polycarbonate and aluminium body, low profile 62mm.

BEDROOMS

KITCHEN SPACES

Whether its a commercial kitchen in a nursing home, a shared kitchen in student housing or a kitchen within a studio space, Sylvania has you covered.

FLEX PRO

Flex Pro is the family of LED strips for indoor use with IP20 & IP65 rating and IP67 for outdoor use. High Colour Rendering Index of CRI90 and R9>50 provides a nice boost in colour clarity.

START SPOT IP65 FIRE

Integrated LED fire rated recessed spotlight, white bezel colour, three temperature light colours selectable: 3000K, 4000K, 6500K.

SYLPIPE UNDER CABINET

Uniform light distribution, with easy installation by mounting brackets. Available in approximately 300/600/900/1200mm length and available in 3000K and 4000K.

SHARED OR SINGLE USE BATHROOMS

Whether it is in a shared bathroom in student accommodation, single occupation in residential/ nursing homes, or just plain bathroom/ toilet lighting requirements - we have everything you need for your project.

START SPOT FIRE IP65

The START Spot range combines high lumen efficacy with outstanding value. The spotlights have an integrated LED driver, polycarbonate body and a low profile of 47mm.

OBICO IP65

Integrated adjustable LED accent downlight with IP65 protection from water and steam vapour, with high lumen efficacy.

SYLMIRROR FLUTE

Sylvania's SylMirror is as versatile as it is practical! Ideal for mirror lighting to change the look of your bathroom, but also suitable for cabinet lighting in different rooms of the house.

SYLVANIA
Group

BATHROOMS

BREAKOUT AREAS

In a shared space, breakout areas can be used for socialising, reading, playing games and much more! Make sure that they are well lit to create a relaxing ambience.

MINI CONTINUUM II

Mini Continuum II provides perfectly clean horizontal and vertical lines of homogenous light with no shadows. Ideal for offices, meeting rooms, corridors, education facilities, museums and libraries.

PIXO TRACK LIGHT

The new Pixo (Small - Medium - Large,) have a simple and slick integral design fixture, with no driver box and no visible screws. The fixtures emit extremely precise light beams due to the high quality lenses.

NILO

Nilo is a 360° curve-shaped luminaire for retail, hospitality, and office environments. It can be suspended at different heights, allowing architects and lighting designers to play with the design space and create appealing lighting effects.

SYLVANIA
Group

BREAKOUT

CORRIDORS /INTERNAL WALKWAYS

Internal lighting between rooms is paramount to people's safe passage through spaces. Clear and bright light, from subtle yet stylish fixtures is the best way to light these dark spaces.

SOLSTICE

Concord Solstice is a comprehensive downlights family, specially developed for the architectural specification market. It has been developed around a bespoke reflector system which achieves class leading performance.

GIOTTO

Our most robust, reliable and easy to install ambient LED bulkhead. Up to 2350 lumen output; IP44 and IK10 rating; Available in both surface and recessed mount.

INSAVER SLIM

InSaver Slim is a comprehensive range of downlights with lumens value from 620lm to 4950lm. The new, redesigned lenses provide very good uniformity of light, bigger beam angle of 70 degrees and a wide light distribution curve.

CORRIDORS

BALCONIES/ OUTDOOR SPACE

Well lit balconies are so important to ensure safety, but also to maintain a stylish aesthetic outside as well as in. Recessed or surface mounted external lights can look equally stunning and floodlights can be used for additional illumination in most outdoor spaces.

START SURFACE IP66

START Surface IP66 is perfect for interior and exterior applications including residential and commercial entrance ways and corridors. It benefits from a robust design that meets IK10 requirements.

START SURFACE WALL CUBE

Perfect for facade lighting with Square shaped design Adjustable beam angle (0-94°) and with Integrated switch allows to choose between warm white (3000K) and neutral white (4000k.)

SYLFLOOD

Slim LED exterior floodlight with/without PIR. Featuring a lightweight, durable, die-cast aluminium body with universal mounting brackets allowing wall or surface mounting with the possibility of tilting upwards or downwards.

BALCONNIES

OUTDOOR WALKWAYS

Everyone knows the importance of a well lit walkway, but with lighting capabilities changing all the time, exterior lighting doesn't have to be staid. From poles to recessed, below is a flavour of what Sylvania can offer.

START BOLLARD

Integrated LED bollard, contemporary design on a classic bollard, 1100LM, 19W, 58lm/W, integrated switch allows to choose between warm white (3000K) and neutral white (4000K) colour temperatures.

MURO SURFACE

Wall mounted fixture for exterior lighting applications, Die cast aluminium housing in RAL7016 – anthracite grey colour. Also available with 3 hour emergency.

START SURFACE IP66

START Surface IP66 is perfect for interior and exterior applications including residential and commercial entrance ways and corridors. It benefits from a robust design that meets IK10 requirements.

SylSmart Connected

SylSmart Connected is the latest in smart lighting technology from Sylvania Group.

Using Bluetooth wireless mesh to facilitate communication and control intelligent luminaires; SylSmart Connected allows users to truly customise their lighting experience.

Once SylSmart Connected is in place, upgrades can be added to create packages, enhancing the technical capabilities and data analysis of Connected.

SylSmart Connected Pro is the innovative extension of Connected. Seamlessly integrating global monitoring and detailed data collection, providing user-friendly, actionable insights that empowers users and elevates the quality of the building services for occupants.

What are the SylSmart Connected options?

CONNECTED - ORIGIN

Intelligent controllable lighting at your fingertips

CONNECTED PRO - GROWTH As above with...

Global oversight and remote control, offering foundation level lighting service.

CONNECTED PRO + - EVOLUTION As above with...

Advanced analytics, complete device asset overview and actionable insight.

CONNECTED PRO + Add ons - ECO SYSTEM

As above with...

Premium functionality including services, open API or top level data and data storage.

SOLAR POWER

Natures gift, Our future

Providing clean, year-round renewable energy; Solar panels are one of the most cost-effective ways to reduce carbon and improve energy efficiency. We are proud to work with and provide Solar services to companies who share our visions of a carbon neutral future.

Our team of designers and Solar experts are ready to work with you to ensure you receive a Solar package that meets all of your requirements, leading to a more energy efficient future.
